

The background is a solid blue color with a large, faint, light-blue graphic overlay. This graphic includes a human torso with a heart and lungs, overlaid with a grid and ECG (heart rate) lines. A smartphone is positioned in the center, displaying a dark screen with some faint icons. In the bottom left corner of the graphic, a pair of glasses is visible. The overall theme is medical technology and digital health.

Sync.MD helps Veterans stay connected to VSOs, the VA, and Community Healthcare Providers

VSOs invite Veterans to start using Sync.MD:

- Veterans download the app and register their account
- Veterans collect their records from any provider, including the VA
- Records are securely stored using patented security methods and enhanced encryption protocols
- Veteran can easily share documents with anyone

Appendix

Join The American Legion

If you have served at least one day of active military duty since December 7, 1941 and were honorably discharged or you are still serving active military duty honorably, you are eligible for membership with The American Legion.

Join Today for just \$45 per year

VA Benefits Assistance

Accredited American Legion service officers are specially trained to provide expert assistance, free of charge, to veterans and their families. Your membership also helps support American Legion Department Service Officers nationwide who assist veterans in preparing claims and obtaining their full military healthcare benefits through the VA.

Share your information with American Legion

- 1.Scan the QR Code with your smartphone to install the Sync.MD app and register an account
- 2.Agree to share access with American Legion to aid in managing your claims
- 3.Access VA information and download to your Sync.MD app or request community care records – all information is securely shared with American Legion

Manage your health records and service eligibility info right from your smartphone. Sync.MD® is a mobile Personal Health Record (PHR) platform that enables Veterans to securely collect, store, and share their electronic health information.
